

One of the most important attractions of the present senson will be the appearance of DeWolf Hopper and his famous comic opera company at the bit Lake theatre on next Thursday

more of a favorlie with the general theatre-going public than DeWolf Hopper, and the announcement of the production for the first time here of his duction for the first time here of his to their roles as well as to the reputative greniest successes since his advent tion already acquired by them.

"School" is likely to have a very successful issue at the opera house the ago, bright, tuneful and picturesque Wang," and merry, melodious

doubt the Jolly fun-maker and his talented coterie of singers and comedians be accorded a series of large and blonable audiences.

'Wang" and "Dr. Syntax" enjoyed a series of extraordinary runs at the Broadway theatre, New York city, which aggregated over 600 performances, and they are said to fairly scintillate with sparkling gems, bright, erisp lines and humorous situations.

Mr. Hopper's company is quoted as Mr. Hopper's company is quoted as being a most excellent one, and is said to be the largest, best and most complete he has ever had. Its members have been specially chosen for their fitness for the various roles in the two operar. Among the prime favorites in the organization are winsome Edua Wallace-Hopper, the daintiest and most captivating soubsette on the comic opera stage; Bertha Walizinger, the soprano; elever Alice Hosmer and Stanley, the pleasing tenor; Thomas S. Quise, an excellent bartione; diminus, hold gracefully and well.

Week is likely to be the final one for Miss Mall one for the form A CANDID FRIEND.

A CANDID FRIEND.

A friend of Mr. X. has recently mark field a wealthy but very stout widow. Soon after he had returned from the Opera had been a present in correspondence ment by Miss Bateman, who may, before the A friend of Mr. X. has recently mark as wealthy but very stout widow. Soon after he had returned from the Op fluse, an excellent barrione; diminu-five Alfred Klein, the roly-poly come dian of the company. Augusts Coletti, a nimble acrobat and graceful dancer, as well as H. P. Stone, Louis Shrader and others equally known. There will be a large and powerful thorus, composed almost entirely of pretty young ladies, with strong, fresh voices and a thorough knowledge of their use.

On Friday the Lyceum management came to the conclusion that the city's patronage did not warrant the expense they were undergoing with a high-salaried company, and the brief season of theatricals at that place came to an abrupt close. On that day Mr. Rich-

presentation of these two successful operas in this city will be made with all of the same claborate scenery, brilliant and showy costumes, expen-sive accessories and mechanical effects,

and show costumes, experimentally and come to considerable and thoroughly perfect manner as in the arginal property. The themse of "Wang" is an oriental reason and in second seriod in Sian, and the second seriod in Sian, and the second seriod seriod in Sian, and the second seriod ser

gagement has been arranged as follows: Thursday evening and Saturday matinee, "Wang;" Friday and Saturday evenings, "Dr. Syntax."

all aid materially in bringing about the amusing complications which beset her path. The part of Naomi Tighe, a wealthy heiress and sworn confidante of our heroine, will be undertaken by Miss Mcintyre. A meddling wife and pretentious schoolmaster, roles to be interpreted by Mrs. Chester and Mr. Edeson, will incite much of the mirth in the piece. It almost gees without saying that ingersoil and Edwark in the respective parts of Lord Beaufoy and Jack Poyntz, will do ample justice to their roles as well as to the reputa-

coming week. what promises to be a great attempt in the era of realism will be seen at the Salt Lake theatre next Wednesday evening, in the inclodrama of Lincoln J. Carter's "Fast Mail." This play is well known throughout the country for the completeness and magnitude of its the completeness and magnitude of its mechanical effects. The production is under the personal supervision of the author, Lincoln J. Carter, and special scenery is carried for the ten complete sets used in the play. In a second act a steamboat is shown with the boiler rooms and their intricate machinery and the growing furnaces. The boat is blown up by a tremendous explosion, and the wreck is seen going down mid river. A great railway scene is another achievement of this performance in the direction of realism. A freight train of fourteen cars is run across the stage with an illuminated caboose and train of fourteen cars is run across the stage with an illuminated caboose and a practical locomotive. The fireman and engineer are seen at their respective stations, a mail train comes speeding by and catches the mail pouch just as every one has seen it do many a time, producing an effect entirely realstic. In the last act Niagara Falls are shown in all their natural beauty. A cataract of real water is placed upon the stage, boiling and foaming like to nature. Soft moonlight adds to the effect and the scene would need only a suspension bridge to complete the effect of reality.

It is rather singular that the comedy "School" should have been selected for the coming week at the Grand, and that the comic opera of "Dr. Syntax," which is really the same piece under nother name, should be coming to the

It may not be generally known, but is nevertheless a fact that the coming week is likely to be the final one for nu- hold gracefully and well.

of theatricals at that place came to an abrupt close. On that day Mr. Richman called for his week's salary in advance, said to be \$125, claiming a doubt as to whether the house could be kept open with its limited attendance; but prepayment was refused and the staiwart star declined to continue his saidwart star declined to continue his said that

sion and general deportment, was evidently disgusted with racing and all its associations. Why she was at the track at all neither Hopper nor Klein could make out, unless to keep her forbidding eye on her erring better half. Well, the race finally started. Hopper and Klein forgot all about lady, and looked at the horses. Klein remarked: "I think Emma C is in front." Hopper said: "Klein, my boy, enjoy it while you can, for she will be running backward in a few minutes. Look at Patrician coming up." Klein; "No I am blessed if he is. What is the matter with Emma C? Backwards nothing. She's a Defender that girl." Then goose flesh began to appear on Klein's neck; the color left his cheek; his eyes stood miles out of his head and his hair suggested the porcupine's quills. He forcest averagingly and everything. Save gested the porcupine's quills. He for-got everybody and everything, save that his 10 to 1 shot was ahead, and when she finally won, in a paraxysm of emotional insanity, forgetting on which After an exceedingly successful week with the "Galley Slave," the management of the Grand opera house purpose producing Tom Robertson's popular comedy "School."

This is a piece in which excessive merriment abounds from start to finish, caused by the scrapes and complications indulged in by a mischievous schoolgirl. In this play the curtain will rise upon Miss Warren in a character as diametrically opposed to Francesca in "The Galley Slave" as could possibly be conceived. She is to be a schoolgirl in the midst of a beyly of Cinderella. She is the envied possessor of admirers by the score, who all ald materially in bringing about the amusing complications which beset her path. The part of Naomi Tishe.

who was the original founder of the "Dramatic and Lyric" column in this paper, and for years has been identified with the dramatic and musical features of the press of this city.

her excitement and said, 'Come!' Suddenly six chairs began to dance a wild trantella. The lady blushed, paid, and went.—La Tribuna.

THE SPARROW.

t skies be cloudy or skies be blue, tile brown sparrow, away go you, eer in search of food or fun, me summer or winter, rain or sun.

April spreads when you build your nest; Autumn feeds you with golden corn, And berries ripe on the wayside thorn.

Winter comes with its frost and snow; Waters may freeze and winds may blow, Yet little you reck, and nought you rue, For every hand has a crumb for you.

Through sunshine tomorrow and storms today
You go, like a friar of orders gray,
Finding, wherever your fancy leads,
A table spread for the wanderer's needs.
—Andre Theuriet in "Song Birds and
Seasons."

STILL WORKING ON THE 'AIRSHIP' Hiram S. Maxim, the inventor, contributes to the North American Review He upon a solution of the problem, an article in which he discusses the Chicago Record. present status of an effort to perfect a flying machine and comments not despondingly upon the prospects. Mr. Maxim himself has a machine under way, and with this he says he is already able to make promising experiments. The machine weighs 8,000 pounds but in Mr. Maxim's efforts to make currents of air support his "airmake currents of air support his "air-ship's" plane of resistance he finds that in a wind of forty miles an hour the weight of the machine is nil, while a wind of forty-five miles would raise the whole contrivance into the air and an additional weight of 2,000 pounds be-

additional weight of 2,000 pounds fe-sides.

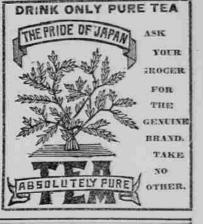

At the same time Herr Lilienthal, a German inventor, is experimenting along similar lines, and finds that he can fall off a high hill with his pres-ent arrangement and reach the bottom in safety. Two English inventors, who are making similar experiments, have are making similar experiments, succeeded, one is making a small ma-chine which will support itself in the air, and the other a contrivance oper-ated by steam, which will run on wheels for some distance, and then soar upward for a brief journey in the air.

It is worth while keeping in mind, therefore, that while science is at work

are still at the old problem of aeronauties. Apparently they are pounding along at about the same point where the problem was first undertaken, the the problem was first undertaken, the only difference being that the halion as a bocomotive power has been given up as hopeless. Ex-Senator Ingulis in a recent speech expressed the heliot that within a comparatively short time it would be possible for Kansas congressmen to make hiws at Washington in the afternoon and eat dinner at their Kansas bomes in the evening, the means of transportation being some the means of transportation being some

does not seem to be much fustle view, but at all evems the should be the means of realizing his should be the means of realizing his should be the means of realizing his should be the shou dream—the inventors—have evidently not been discouraged. And in this day of scientific progress it is not safe to sneer at any rational attempts, no matter how skeptical one may be. Some one, some time, somehow might stumpter uses a safetion of the problem—

All Cream Tartar tested and found pure, before it is used in the mak-ing of the new High Grade Three Crown Baking Powder.

Rests upon the head of every family in this region, and it is this: To provide comfort for those left in their charge during the cold winter months.
